## CAREER OBJECTIVE

---

Detail-oriented MCA graduate with hands-on experience in Java, SQL, and web development technologies. Looking for an entry-level position in the IT industry to contribute to innovative projects and continuously enhance my technical expertise. I am a quick learner with a strong work ethic and a desire to grow within the field of software engineering.

## EDUCATION

---

**Annamacharya Institute of Technology and Sciences**

**November 2023 – Jul 2025**

*Master of Computer Applications, 8.57*

*Rajampet, Annamayya*

**Dr Jyothirmayi Degree College**

**June 2020 – Oct 2023**

*Bachelor of Science, 7.54*

*Adoni, Kurnool*

**Viswa Narayana Junior College**

**June 2019 – March 2020**

*Intermediate, 7.03*

*Adoni, Kurnool*

**Zilla parishad High School**

**March 2018**

*SSC, 8.7*

## SKILLS

---

- Java programming Language
- Good at Structured Query Language (SQL)
- Web Technologies HTML5, CSS3, and JavaScript
- React JS - Library
- **Soft Skills:**
- Effective Communication, Teamwork and Collaboration, Adaptability, and Time Management.

## INTERNSHIP EXPERIENCE

---

**Glossary Soft Tech Private Limited**

**Hyderabad, Telangana**

Entry-Level Engineer Intern

*November 2022 – February 2023*

- Project Documentation: Developed comprehensive project documentation, including flowcharts, diagrams.
- Facilitated cross-departmental coordination to implement interactive features, reducing development time by 15%.
- Optimized documentation performance, improving load times by 30% through efficient.

## PROJECTS

---

**Title : A Proxy Grammar To Enhance Web Application Firewalls For SQL Injection Prevention**

- Planned and implemented a proxy grammar-based solution to detect and block SQL Injection attacks, improving web application security by up to 90%.
- Enhanced the effectiveness of traditional Web Application Firewalls (WAFs) by introducing grammar-based filtering techniques, reducing false positives by around 30%.
- Developed a custom parsing engine that analyzed SQL query patterns to prevent malicious inputs.

**Title : Food Delivery Application**

- Built a full-stack Food Delivery Web Application using Java and MySQL, enabling users to browse restaurants, manage carts, and place orders efficiently.
- Crafted a responsive frontend using HTML, CSS, and JavaScript to ensure smooth navigation across multiple devices.
- Maintained over 95% data accuracy in order transactions through robust input validation and efficient database.

## PROFESSIONAL CERTIFICATIONS

---

- Full Stack Web Development Certificate
- Completion of Java Course – Mind Luster Organization
- AWS Academy cloud Foundations – AWS (Amazon Web Services)
